Activity #1: Life In During The WWII Era

On The Air

Students reenact the Golden Age of Radio.

Supplies:

- A fake microphone (can be a craft, or even a hairbrush!)
- Paper and pencil

Instructions:

Create a “radio station” area in the classroom. Have the class write their own WWII news bulletins, 1940s era commercials, letters to the station, and entertainment segments to create content for, and perform their own radio show. Students can utilize objects they find in the classroom, or their own voices to create sound effects.
