Modeling Meets Math

Strike a Pose: Get Expressive with Triangles!

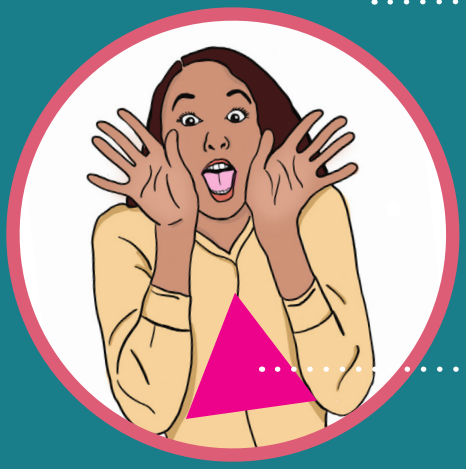
Math, art, photos—triangles do it all. They're the power pose of shapes! Each side backs the others up (kind of like your confidence when you stand tall). Next time you snap a pic, play with fun, expressive triangles when you pose. Every line adds energy and attitude.

IDK pose

isosceles triangle

OKAY! pose

acute triangle



LOL! pose

equilateral triangle
