

# FISHING CAT

## My Research Guide

Name: \_\_\_\_\_

Date: \_\_\_\_\_

## MEET THE FISHING CAT

Fishing cats live near water in parts of Asia. They catch fish and frogs. Their front paws are slightly webbed to help move in water. Young cats learn by watching their mothers.

**Habitat:**  
an animal's home

**Prey:**  
an animal caught  
for food

**Webbed:**  
skin between toes

## FIND THE FACTS

Circle where fishing cats hunt: water / snowy fields

Circle TWO foods: fish / grass / frogs

Young cats can learn from their \_\_\_\_\_

## DRAW AND LABEL

Draw a fishing cat's home. Add water and something it eats.

Word Bank: water --- fish --- frog --- cat

## HELP THEIR HOME

Dirty water and habitat loss can harm fishing cats.

One way to keep water clean: \_\_\_\_\_

I still wonder \_\_\_\_\_
