**Video 14: Kudzu Basket – D. Building Sides**

So, now what I'm going to do, since we are just making a medium-sized basket, I'm a show you how to make the edges, how to turn your basket up. So what you do is, you kind of put your basket on your lap and take your "fingers" and bend them up. Bend them up. And now you want to start curling the basket up. So you kind of lay it on your knee and you do the same process, under and over. Keep turning the basket, under and over, under ... Once you, once you, once you um start this, your vine automatically a go under and over... all you have to do is kinda guide it. Remember that every time you move it, keep that thumb down. Every time you move, keep that thumb down to keep it in place. And it is still under and over and you keep turning your basket. Under and over. Under and over. Under and over.
