

a natural state

**Artist: Jimmie Dinkins**

**Video 9: Bentwood Trellis – D. Nailing Joints**

So what I do is... I take the nail, and I place it right there, and the wood is very soft, so, you just tap that in and I put two in there. And I reverse, actually I do the same thing on the left side. I do the same thing on the left side. I put in two nails.. in the left side. So now, let me show you what I have here, now you have a similar thing, you have a tree like thing. So this is going to be your trellis right here. So what I do is.. I just bend it down this way, I just bend it down this way and I put a nail right here. Okay. And the left side, you do the similar thing, you want to match them up. You do a similar thing on the left side. Okay. So you want each end even and you cut the ends off with your shears. There, then you have almost like a heart shape.
