Music intro

Pierce: I just want to see if the fanny is flat and that it is not broken anywhere. That's nice and heavy. Need to make sure there is not anything weird on it.

Very weird shape...kinda light.

I was not good at growing them myself, I don't have a green thumb at all, so I have to rely on a farmer who is still growing gourds. Now that I know more about gourds I can say I need five thirteen inch bushel gourds and she'll mail them to me. So this is kind of a treat to come out here today and pick my own gourds.
